

**CTEK XT 14000****14 A**

24V BATTERY CHARGER FOR PERMANENT INSTALLATION

CTEK XT 14000

The XT 14000 is a professional 24V charger. It has been developed for charging and maintenance charging of 24V vehicles and machinery. XT 14000 has no mode button - just plug in the mains and connect the battery cables to start charging.

The XT 14000 is equipped with all necessary features and functions to solve a broad range of battery related problems. It offers features such as battery diagnosis that shows if a battery can receive and retain a charge, unique maintenance charging, and a temperature sensor for optimised charging regardless of the weather conditions.

The XT 14000 is a fully automatic 7-step charger that delivers 14A to 24V batteries from 28-300Ah and is suitable for maintenance charging up to 500Ah. The charger is IP44 classified (outdoor use), designed to protect vehicle electronics, and is non-sparking, reverse polarity protected and short-circuit proof.
